### Manicure Soak

**Step 1** - The first step to beautiful hands. Pump Manicure Soak into a manicure bowl, induce a light foam and soak hands for a minimum of 2 minutes. The key ingredients help exfoliate and act as a natural antibacterial agent. For an extra visual effect and added natural vitamins why not add a couple of orange slices to the soak.

- HOF/014 Manicure Soak 355ml** **£5.75**
- HOF/101 Manicure Soak Retail Tube 89ml** **£2.95**

### Manicure Exfoliant

**Step 2** - Apply a generous amount of the Manisation Manicure Sugar Exfoliant onto the top and bottom of the hand as you work your way to the cuticle area, concentrating on the dry cuticles and the top of the hand where age spots are more predominant. Glycolic acid will lighten hands and the sugar will buff away dry skin, whilst Aloe Vera provides a natural protective barrier.

- HOF/015 Manicure Exfoliant 475g** **£10.95**
- HOF/102 Manicure Exfoliant Retail Tube 89ml** **£2.95**

### Manicure Masque

**Step 3** - Deeply moisturise and nourish the hands with the antioxidant properties of Grapefruit extracts and essential vitamins. Apply a layer of Manisation Manicure Masque onto the hands avoiding the cuticle and nail bed. For added value squeeze some grape juice onto the skin and massage until absorbed, then further activate by the use of Heated Mitts (EQU/8150) see page 81.

- HOF/017 Manicure Masque 475g** **£7.50**
- HOF/103 Manicure Masque Retail Tube 89ml** **£2.95**

### Manicure Lotion

**Step 4** - This is the best time to listen to your customer's needs to keep your customer coming back. Apply a generous amount of Manisation Manicure Lotion onto your customers hands and arms and work the lotion until fully absorbed to protect and hydrate. For added value and a longer massage you can also mix the Lotion with an essential oil to maximise the slip.

- HOF/016 Manicure Lotion 355ml** **£5.95**
- HOF/104 Manicure Lotion Retail Tube 89ml** **£2.95**

### Pedicure Soak

**Step 1** - The first step in the Aromatherapy Pedicure treatment, with tea tree to disinfect and Lavender to relieve and calm. Pour into warm water and let them soak for 10 minutes. If extremely dry allow up to 15 minutes to soften dry skin and cuticles. Add value to your pedicures by placing mint leaves in the bowl and offer Lavender or Mint Tea to your client.

- HOF/011 Pedicure Soak 1000ml** **£11.45**
- HOF/211 Pedicure Soak 200ml** **£3.90**

### Callus Exfoliator

**Step 2** - The revolutionary high PH breaks down the skin, then the micropumice gently and deeply exfoliates the callus. The microbeads resurfaces, removes residue and excess skin. Leave on for 2-4 minutes (7 minutes max).

- HOF/074 Callus Exfoliator 1000ml** **£23.50**
- HOF/273 Callus Exfoliator 118ml** **£5.95**

## Pedicure Scrub

**Step 3** - Apply Pedisation Lavender Foot Scrub to the bottom of the foot only. Infused with Lavender, Essential Oils and Mint Extracts to soothe the feet and calm the mind. Real pumice stone smooths the skin leaving it as soft as can be. (Available also with Pomegranate, Tea Tree & Mint and Pear, Nectar & Mint).

- HOF/009 Lavender Pedicure Scrub 910g **£11.45**
- HOF/042 Pometea & Mint Scrub 910g **£11.45**
- HOF/059 Pear Nectar & Mint Scrub 910g **£11.45**
- HOF/209 Pedicure Scrub 200ml **£3.90**
- HOF/205 Pometea & Mint Scrub 200ml **£3.90**
- HOF/204 Pear Nectar & Mint Scrub 200ml **£3.90**

## Pedicure Polish

**Step 4** - Polish away dry, dull skin. Apply the polish below the knee to the top of the foot only. This specific formula with Eucalyptus and Menthol oils penetrate deep to relieve tired aching muscles and exfoliate the skin on delicate areas.

- HOF/065 Sea Salt Pedicure Polish 910gm **£21.50**

## Pedicure Masque

**Step 5** - Apply a layer of the Pedisation Foot Masque over the ankle and the entire foot, but not directly onto the nail. Allow for the masque to fully absorb onto the skin allowing it to dry for 5-10 minutes. To achieve maximum results use with SkinMate® Heated Boots EQU/8140 (page 81).

- HOF/012 Pedicure Masque 910gm **£12.95**
- HOF/212 Pedicure Masque 200ml **£3.90**

## Pedicure Lotion

**Step 6** - Apply a generous amount of Pedisation Lotion onto your customer's legs and feet for the most relaxing experience yet! Work the lotion until fully absorbed. This is the best time to listen to your client's needs, to keep them coming back. To provide a longer massage mix the lotion with some essential oils to maximise the slip.

- HOF/010 Pedicure Lotion 1000ml **£11.45**
- HOF/210 Pedicure Lotion 200ml **£3.90**

## Pedicure Critical Repair

**Step 7** - Apply Pedisation Critical Repair Crème onto callus prone areas, for example the heel or any dry, cracked skin area. Add value to your pedicure and apply the CRC to knees, elbows or any other dry skin area where required.

- HOF/013 Critical Repair Crème 475g **£6.95**
- HOF/213 Critical Repair Crème 200ml **£3.90**

## Pedicure Cooling Gel

**Step 8** - This is the final and most important step to achieve a long lasting pedicure. Apply a generous amount of Pedisation Cooling Gel over the foot to allow the pores to close. This will enable the moisture to really stay deep down into the skin and prevent dehydration. The cooling gel will also assist with relieving tired, aching muscles.

- HOF/080 Pedicure Cooling Gel 100ml **£11.45**
- HOF/208 Pedicure Cooling Gel 200ml **£3.90**

## The Properties of Argan Oil Nature's Therapy for Nails...

Argan oil's organic unique composition has gained an international reputation for being nature's anti-ageing skin care oil. The properties of Argan Oil work to enhance the skins overall health, preserve its youth and aid in natural healing.

Researchers who have completed extensive studies identify the benefits of Argan Oil and strongly recommend its use in the field of cosmetics. In this instance Argan Oil is used in the strengthening of soft, brittle and broken nails and softening cuticles.

Argan Oil is highly regarded for its healing qualities, especially on such skin conditions as Eczema. It is also ideal for use on sun damaged skin and recommended for its rehydrating and firming effects, as well as stimulating cell regeneration. Argan Oil is naturally rich in Vitamin E and essential fatty acids.

### Age Defying Nail & Cuticle Treatment System

Formulated with organic, age defying Argan Oil from Morocco, these Nail & Cuticle treatments have added a real sense of beneficial value to your nail treatments.

This range of 6 different products made with certified organic Argan Oil that is valued for its nutritive, cosmetic and numerous medicinal properties, perfectly works with any brand of nail polish, giving your Manicure and Pedicure a BOOST of life.

This range is formulated to fortify, reinvigorate and nourish nails. It will also strengthen the polish to prevent chipping, peeling, streak lines and pigmentation.

### Argan Oil Hand Repair Crème

Massage this nightly regime into hands and cuticles last thing in the evening. This Argan Oil Hand Repair Crème keeps your hands moisturised all night, retaining the moisture and protecting against moisture loss while you sleep. This repair crème combines Shea Butter with age defying organic Argan Oil from Morocco. This night time Hand Repair Crème keeps your skin moisturised whilst restoring a youthful softness and helps diminish the visible signs of ageing.

**HOF/106 Argan Oil Hand Repair Crème 89gm**

**£4.95**

The Hand Spa features LED light technology that operates 3 different light spectrums for different results. A powerful tool against the signs of ageing...

There are many beneficial results to be obtained from light therapy.

Due to the constant exposure our hands receive from our lifestyles, the elements, sun exposure and external factors that accelerate the ageing process such as modern day detergents...

The hands appear to age faster than other parts of our bodies and the skin is easily damaged. The Hand Spa has a number of features which can help minimize and control the visible signs of ageing including Photorejuvenation and Hydromassage.

Dimensions (34x30x15cm H)

## Health Benefits

The Hand Spa LED light stimulates a gradual overall improvement in skin tissue, regenerates and improves the appearance of the skin. Circulation is increased, collagen production and fibroblastic activity are promoted providing positive results in the treatment of anti ageing and sun damage.

## Photo-rejuvenation

Light Therapy or Chromotherapy can be traced back to Ancient Greece. Even then people were aware that light exposure had a beneficial effect on health.

Research has been proven to show that various wavelengths are effective treatments in the field of dermatology and Physiotherapy. It was noted

that certain single wavelengths had excellent therapeutic effects on skin tissues through a process called Photostimulation, or Photo-rejuvenation

The light LED (light emitting diodes) emitted from the Hand Spa is a very gentle wavelength of light but is still potent enough to stimulate and heal the skin.

Over time collagen levels in the skin gradually decrease causing wrinkles to form. In the dermis, cells called fibroblasts constantly replenish the skin production of collagen and elastin. Fibroblasts lose their ability to function over the years, resulting in the loss of collagen and elastin.

LED light therapy is a gentle, painless and approved treatment. It feels comfortable, relaxing and generates a feeling of well-being, as well as being safe, non-invasive without side effects. The skin feels more active, plump, and smoother with a natural radiant glow.

- More youthful looking hands and skin
- Increased circulation
- Added moisture retention
- Increased radiance

## Hydromassage

Hydromassage of the skin of the hands promotes blood flow and increases the metabolism of the skin, subcutaneous tissue and muscle fibre.

Providing a more healthy skin tone with increased elasticity. Leaving the hands feeling relaxed and gently massaged. The Hydromassage also has an additional facility of Ozone Therapy which features antibacterial properties to soothe and massage hands as a pre-treatment.

## Temperature Control

The water temperature will be automatically displayed and can be adjusted between 40-50°C

## Cost of Treatment

Incorporate added value and the benefits of your manicure menu simply give each hand a 10 minute session incorporated into your manicure regime.

For further information regarding chromotherapy products please see pages 67 & 66.
