

Matricol® Collagen Sheets are not masks impregnated with Collagen. They are sheets of pure natural Collagen compatible with all skin types. Collagen is the most common protein in the human body. As a natural element of the human skin, it is responsible for elasticity, moisture retention and skin smoothness.

The product's active ingredients are released when liquid is added. Just one treatment provides the skin with an optimum of moisture, improving the wrinkle profile.

Hydration levels are increased by up to 180%, this increase is clinically proven to last for up to 14 days.

**MATRICOL®  
Natural Collagen**

**For All Skin Types** ✓

The Definitive Hydrating Treatment For dehydrated skin and all skin showin expression lines and signs of ageing.

**Benefits:**

- Plumps out wrinkles
- Evens skin texture and colour
- Anti-ageing
- Intense hydration

Active Ingredients: Native Collagen, Collagen amino-acids, Peptides.

**Products Needed:**

- Gentle Peeling (CA10) or Scrub Cream (CA06) or Vegetal Enzymatic Peel (CA36)
- Specific Cleanser (PO01)
- Ampoule to suit skin type
- Collagen mask (CF07)
- Day Repair Fluid (PO18)

**Note:** We recommend daily use by your customer of the Day Repair Fluid and one of the Oligodermie Intensive treatment creams. It will increase and prolong results obtained by the Collagen Sheet treatment.

**Presentation:** Sealed packets of 5 dry Collagen sheets of A4 size.

**CF07 Matricol Collagen-Natural**  
5 masks - 5% (£5.89 x5) **£29.45**

**MATRICOL® Collagen  
plus Caviar Extract**

**Intense Anti-Ageing For All Skin Types** ✓

Pure Collagen film with the added benefit of anti ageing caviar extracts (1%). This powerful combination actively fights the ageing process of the skin. Immediately after the first treatment the smoothing effect is visible.

The Caviar triggers the skin cells into immediate reaction restoring the skins youth and delaying signs of ageing. The collagen renews and restores the skin with an infusion of moisture and transports the caviar to the skin cells.

**Products Needed:**

The same as for regular Collagen. To boost the effect of the Caviar, use the soluble Collagen ampoule (CE03).

**Recommended Treatment Course:**

3-5 treatments at weekly or fortnightly intervals.  
Home Treatment:  
To achieve maximum results, the Oligidermie Q10 Cream or Retinol and Vitamin C cream should be prescribed.

**Presentation:** Package of 5 sheets (A4 size)

**CF14 Matricol Collagen with Caviar Extract**  
5 masks - 5% (£5.89 x 5) **£29.45**

**MATRICOL® Collagen  
Eye Patches**

**For All Skin Types**

This is an anti-wrinkle treatment using native Collagen on fragile areas of the face. Its semi-circular form has been especially designed for eye and mouth contours, and for "tell tale" crow's feet.

Recommended for all skin types, at the first sign of ageing.

2 patches per envelope x 6  
**CF10 Mini Collagen Eye Patches**  
6 packs - 5% (£1.57 x 6) **£9.40**

## Collagen Plus Vitamin C

Skin ageing accelerates when tissues form an excess of unstable oxygen molecules, known as "free radicals". These radicals then attack the cell membranes, located at the core of every cell. The cause of free radicals sunlight, smoking, alcohol consumption, poor diet, etc.

### For Mature and Devitalised Skin Types

Vitamin C is required throughout the body in the construction of connective tissue. Due to these competing demands, it is sensible to direct vitamin C to those areas which are in particular need of revitalisation of prematurely ageing, skin. In cases of hyperpigmentation too (e.g. liver spots) or irregular complexion MATRICOL® Vital C leaves the skin in glowing, smooth condition.

#### Benefits:

- Protects the skin against premature ageing
- Proven ability to smooth fine lines on the skin
- Ensures a smooth, even complexion by gently lightening the skin

#### Shock Treatment:

The use of the MARTICOL® Vital C is recommended two to three times per week. The same applies to usage with the aim of achieving a smooth, lightened complexion.

Can even be used as a one off treatment, because after one application there can be immediate visible results. However to ensure long-lasting success, the treatment should be applied at regular intervals.

#### Proven Results:

The stability of the active ingredient in the presence of water, heat and pH-changes was proven during extensive testing and show impressive results.

## Myoxinol Skin Relax

When applied externally, this newly discovered active agent leads to a gentle immobilisation of the facial muscles, without completely laming the muscles. The features look relaxed and the facial expressions are not impaired.

### Specific Target of Wrinkles For All Skin Types

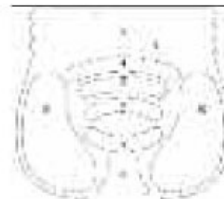

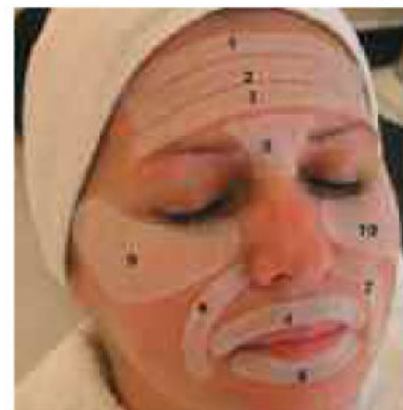

- Concentrated care for the treatment of fine lines and wrinkles on the forehead, in the eye area and around the nose and mouth.
- Relaxes the facial features and smoothens the expression lines without invasive operations.
- The active agent decelerates the processes of biological skin ageing by its cell-protecting (antioxidant) effects.
- The collagen calms the skin and balances out the complexion.
- Native collagen balances out the skins' moisture loss and gives you a youthfully fresh complexion.

#### Proven Effects

To prove the efficiency a test model was selected by cultivating muscle and nerve cells together. The effect of was measured over 24 hours and a significant reduction of muscle cell contractions was observed at the end of this time.

## Collagen plus Hyaluronic Acid

Hyaluronic acid makes up the main part of the connective tissue and the fills in the gaps between the individual skin cells. The substance acts as a gel cushion by padding the skin from within. In this way, the skin is given volume and looks much tighter.

Hyaluronic acid is a fantastic moisturiser that regulates the skin's moisture content. The skin remains plump and soft.

### For Skin Tightening and Wrinkle Reduction

#### Easy To Use

Apply MATRICOL® Hyaluronic Acid directly after cleansing the skin and applying a mild peel. After the activation time of the mask, work a lifting ampoule into the skin. Now do not massage the skin any more, but merely apply a light, moisturising make-up base.

#### Anti Wrinkle Treatment

After mild cleansing and an intensive peel (e.g. enzyme peel), apply a regenerative ampoule concentrate. Apply MATRICOL® Hyaluronic Acid and leave to take effect for 20 minutes. Then massage an anti-wrinkle cream into the skin and conclude the treatment by applying a day protection product (PO18).

#### Dermo-cosmetic treatment

Apply MATRICOL® Hyaluronic Acid directly to the skin right after the abrasive treatment (e.g. microdermabrasion) and leave to take effect for 15-20 minutes. Then remove the mask and apply customised skincare.

#### Course of treatments

A lasting anti-wrinkle treatment should consist of at least four to six applications of MATRICOL® Hyaluronic Acid. Ideally, two masks are applied per week. It is best to recommend an accompanying home care that is not too oily.

#### Maintenance treatment

To maintain the treatment result, at least one application is recommended per month. MATRICOL® Hyaluronic Acid can be integrated in every cosmetic treatment.

## Collagen Plus Bright Line

Due to age and chronic UV exposure, as we get older, human skin increasingly develops hyperpigmentation (e.g. age spots). The visible accumulation of melanin indicates a malfunctioning and/or overstimulation of the skin's pigmentation process.

### For Skin Lightening

Treatment Benefits

- General skin lightening
- UV-related hyperpigmentations
- Dark skin spots (melasma, chloasma)
- Age spots
- Hyperpigmented acne scars

### The Optimum Pre-Treatment For The Skin

For hyperpigmented scars, acne scars or highly light-damaged skin, the skin should be pretreated prior to the application of the mask with an intensive exfoliation.

The following processes are ideal:

- Microdermabrasion
- Enzyme peel/Biological peel
- Fruit acid peel/Chemical peel

For all other indications, a moderate exfoliation can also be advantageous.

If required, MATRICOL® Bright Line could be combined with any further lightening preparations during the treatment. However, it is recommended to use a vitamin C concentrate or a lightening ampoule directly before applying the mask.

MATRICOL® Bright Line is a highly effective product which – due to its special structure – features the best prerequisites for an optimum penetration. Nevertheless, all penetration intensifiers (excluding essential oils) may be used.

- Manual pressure directly on the mask
- Heat treatments such as steam or red light
- Warm liquid or heated activator to moisten the mask
- Galvanotherapy with Iontophoresis
- Ultrasound

After every application of MATRICOL® Bright Line, apply a care product with a high Sun Protection Factor (SPF20+).

The frequency of application can be individually adjusted to the needs and condition of the skin to be treated

## Matrigel® Repair Mask

The Matrigel® is a perfect courier of active ingredients. A variety of ampoules may be used with the gel to personalise the treatment.

Matrigel® is a pure plant based bio-matrix of seaweed derivatives. The seaweed is released when the shapes are re-moisturised, providing:

### For All Skin Types Especially Dehydrated

- Deep hydration of the skin
- Skin repair and regeneration
- Smoother and more even textured skin
- Moisture 'lock in'
- Firming

When the algae is re-hydrated, it provides an innovative massage gel which readily releases its vital elements to the skin whilst providing a perfect medium for facial massage. The gel then forms a 'moisture seal' which 'locks' in the moisture provided, giving a long lasting result.

**HO20 MatriGel Face Mask**  
5 masks - 5% (£4.50 x 5)

£22.50

### Step By Step

1. Cleanse, tone and exfoliate the skin. Moisten the area to be treated, either with water or specific active solution/ampoule & water.
2. Open the sealed MatriGel® mask with dry hands and either place the matrix shapes onto the moistened skin (excluding eye areas). Damp down well. OR You can place the shapes into a small bowl, add water, wait for gel to form. Stir with spatula. Apply with masking brush.
3. Now spread and massage this pliable gel over the skin for approximately 10-20 minutes by applying continuous moisture by steam, sponge or brush.
- 4a. Direct steam (not ozone) on to the areas being treated at a 30-40cm distance. Steaming should continue during the entire treatment.
- 4b. If steaming is contra-indicated or not available you may use a sponge moistened with water, a soft brush or a trigger spray with water. Moisten regularly with the fingertips dipped in water to achieve optimum pliability of the gel while massaging.
5. Do not let the mask dry. If this happens, re-dampen, wait for it to gel again.
6. Remove remaining gel with tissue followed by warm compress.
7. Finish treatment with light moisturising emulsion for appropriate skin type.

## Matrigel Plus Vitamin C

Matrigel® and Vitamin C combined gives truly stunning results for all skin types. An essential addition to your treatment portfolio.

### For All Skin Types Especially Mature/Wrinkled

Independent laboratories confirm that the external use of vitamins in skin care products, in addition to vitamins taken with daily nutrition, offer an efficient contribution to the maintenance of healthy skin and protection against skin ageing.

- Vital for collagen producing cells
- Repair of damaged skin
- Gives radiance
- An effective anti-free radical, reversing the signs of ageing
- Is especially important for the formation of hyaluronic acid, which binds moisture to the skin.

Natural algae bio matrix

- Deeply hydrates the skin
- Evens the texture and soothes
- Reduces redness
- Heals
