

Bust Firming Cream

This 'bra in a jar' is packed with intensive skin firming and toning ingredients. This natural formulation renews youthfull support and texture by firming and toning for the skin of the breasts. For optimum results this bust cream should be used as part of an intensive salon treatment with the Reshaping Bust Mask.

Benefits:

Restores the bust's skin tone and elasticity. Has toning and stimulating properties. Helps control stretch marks.

Treatment Process:

- Carefully cleanse the area of skin to be treated using the recommended Specific Cleanser. Its non-oily texture eliminates any greasy film such as body lotion or sebum and facilitates the penetration of the active principles contained in the Bust Firming Cream.
- Gently exfoliate the skin around the breasts using the Sugar Peeling (CD11) taking care to avoid the nipple area then remove the sugar thoroughly.
- Apply a generous amount of the Bust Firming Cream and massage in a circular motion from the bust upwards towards the neck.
- Mix and apply the Reshaping Bust Mask and leave to act for 20 mins.
- Remove the mask by peeling and re apply a small amount of the Bust Firming Cream.

Frequency of Treatment: It is recommended to have 6 - 12 treatments. (two per week) **Top Tip**

CM25 Bust Firming Cream 250ml £21.50

Reshaping Bust Mask

To firm and remodel the bust. This must be used with Bust Firming Cream, the re-shaping bust mask firms and remineralises the tissues and penetrates the active ingredients of the bust cream.

The results will show lifting, firming and a better shape.

Frequency recommended: 2 x per week for about 10 treatments.

Callus Removal Tool

The Patented Professional Callus Removal Tool

is a new revolutionary, Patented instrument designed to remove calluses and corns safely and quickly, whilst at the same time being gentle with the skin. It is the only product on the market that delivers effective and immediate results, permanent callus elimination even on the thickest or most persistent calluses or corns. This effective solution for calluses and corns will maintain the skin soft and completely free from unsightly build-up of rough skin permanently, Guaranteed!

Best in Safety

by making the instrument safe over soft skin first, and then effective at removing calluses, you enjoy unprecedented levels of safety and effectiveness, this instrument will selectively remove only calluses not healthy skin, without risks of cuts or bleeding, is also painless, it tickles while it works!

Real Results

immediate improvement even on persistent and extremely bad cases. Deep and complete callus elimination, it removes the root of the problem, thus calluses do not come back. Scrape It removes only the hard callus, losing its grip as it exposes new skin gliding over it, leaving this new layer of skin clean and smooth.
